## PROFESSIONAL SUMMARY

I'm a passionate Full Stack Developer who loves turning ideas into functional, user-friendly web applications. After completing my training at **Moringa School**, I've built solid experience working with both front-end and back-end technologies like **React**, **Flask**, **Django**, and **Python**.

Recently, I worked under supervision at **Digireg Kenya Limited**, where I got hands-on experience contributing to real client projects — from building responsive UIs to integrating APIs and debugging code.

I've also taken part in several **hackathons**, which have sharpened my teamwork, creativity, and problem-solving skills under tight deadlines. I'm now looking for a **Full Stack Developer Internship** where I can continue learning, growing, and contributing to a collaborative Agile team.

---

## TECHNICAL SKILLS

**Languages & Frameworks:** Python, JavaScript (ES6+), React, Flask, Django

**Frontend:** HTML5, CSS3, React

**Backend:** Flask, Django, REST APIs

**Databases:** SQLite, PostgreSQL (basic)

**Tools:** Git, GitHub, VS Code

**Other Skills:** Debugging, Agile Development, Collaboration, Problem Solving

---

## PROFESSIONAL EXPERIENCE

**Software Development Trainee (Under Supervision)**

*Digireg Kenya Limited – Nairobi, Kenya*

**Supervisor:** Patricia Wanjiku (p.wanjiku@digireg.co.ke)

**Aug 2025 – Sept 2025**

- Worked with the development team to build and improve full-stack web applications for clients.
  - Designed and developed responsive interfaces with **React**, and helped integrate **REST APIs** using **Flask**.
  - Participated in **code reviews** and debugging sessions, ensuring clean and maintainable code.
  - Took part in **Agile** team activities — sprint planning, daily stand-ups, and retrospectives.
  - Assisted with **database optimization** to improve performance and reliability.
- 

## HACKATHON EXPERIENCE

### Wakalumo Hackathon – 2025

- Led a small team to design and build a web/mobile solution aimed at simplifying **HR workflows**.
- Focused on the **front-end** using **React**, connecting it to a REST API backend.
- Delivered a working prototype within 72 hours and presented it to the judging panel.

### Earth AI Nairobi Hackathon – 2025

- Contributed to a prototype addressing **methane emissions and household pollution** using biogas innovations.
  - Worked on UI/UX design, data visualization, and the final presentation pitch.
  - Learned a lot about **sustainable tech** and environmental data systems.
- 

## PROJECTS

### Quantum AI – Order Management System (OMS)

A modern tool to streamline order processing, track inventory, and manage deliveries.

**Highlights:** Real-time tracking, automated order management, secure payments, and analytics dashboard.

### **My Makeup Products App**

A responsive web app that displays various makeup products using a public API.

**Highlights:** Built with **React**, integrates live API data, and features a clean, mobile-friendly design.

---

## **EDUCATION**

### **Moringa School**

Certificate in Software Development (Web)

November 2024 – May 2025 (Graduated June 2025)

---

## **CERTIFICATIONS**

- **EA Sports – Software Engineering Job Simulation** (Forage, Jan 2025)  
*Verification Code:* ZSNh3jTXz4yXoxc5q
  - **Certificate in Software Development (Web)** – Moringa School, June 2025
- 

## **LANGUAGES**

- English
  - Kiswahili
- 

## **REFEREES**

### **Victor Kuria**

Technical Mentor – Moringa School

 victor.kuria@moringaschool.com |  +254 796 748 515

**Patricia Wanjiku**

Software Supervisor – Digireg Kenya Limited
